

Once again Rocket Math made a huge impact on my students. All five of my 4th and 5th grade students coming to the Learning Center for math computation made significant gains. Three out of four students received both push-in and pull-out services for Special Ed services in the area of math. I only saw these students for small group instruction two times per week, and they still made significant growth.

2018-18 Two-Minute Timed Basic Multiplication Fact Tests Scores

*indicates students who participated twice per week

	October Score	May Score	Increase	Increase Percentage
Student 1	4	22	18	450%
Student 2	5	22	17	340%
*Student 3	2	24	22	1,100%
*Student 4	15	29	14	93%
*Student 5	4	13	9	225%
